  - Global Remittances USD to 160 currencies tapping US friends and family
- Mobile banking solution including:
  - Send and Receive Money
  - Bill Pay + Mobile Top-Up
  - Instant Visa and Secure Credit Card Services

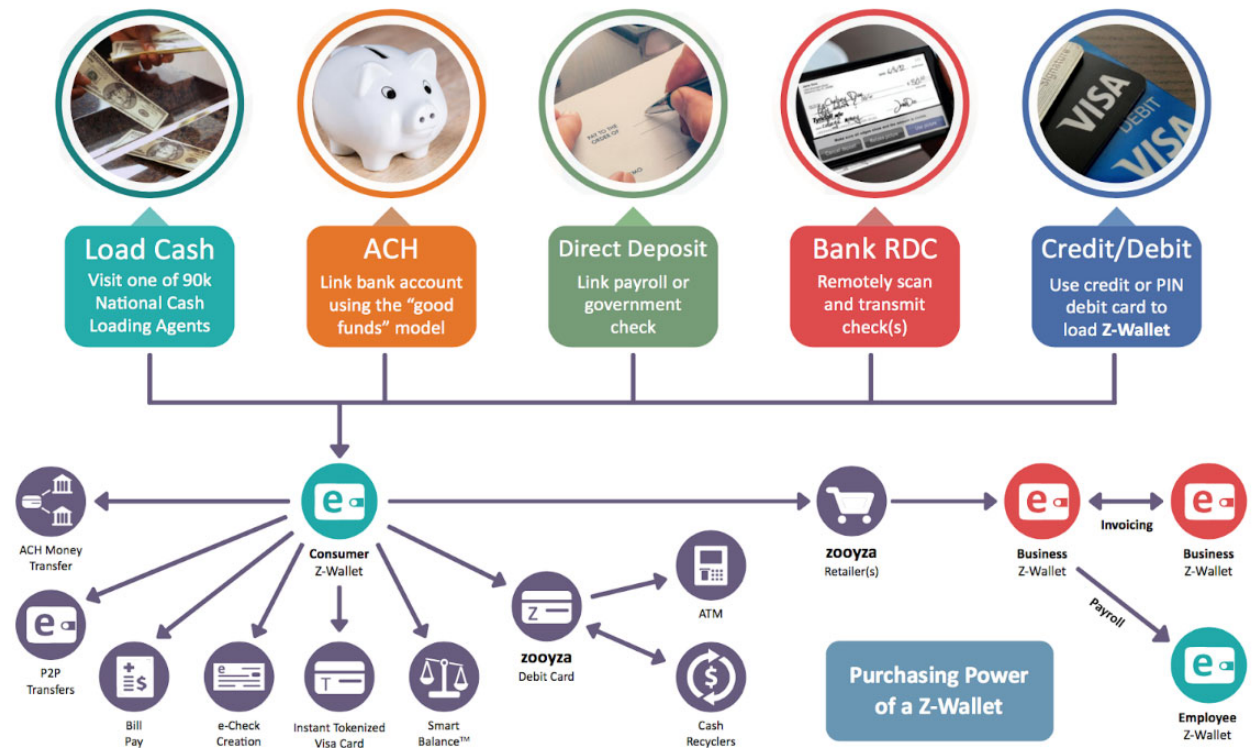

## Features

- E-Wallet Mobile Banking is the consumer and business facing entity
- Issues our FinTech software license
- Utilizes global branding offers:
  - Merchant Services
  - Banking: Bank and Unbanked
  - Third-party Vendor
  - Consumer Network
- Turnkey, multi-rail **FinTech** E-Wallet solution.
- Banking, data management, treasury services and payment processing products for underbanked industries and consumers.

## Open & Closed Loop

### E-Wallet Mobile Banking

E-Wallet intelligently switches between open and closed loops in a single, frictionless transaction. A bank account equivalent complete with ABA number, E-Wallet uses the NACHA/ACH network and can also issue VISA and MC.
